

	Playing and Exploring	Active Learning	Creating and thinking critically
Characteristics of Effective Teaching and Learning Every unique child is... engaged, motivated and thinking	I can recognise that my actions have an effect on the world, so I like to repeat them. I can make choices and explore different resources and materials. I can plan and think ahead about how I will explore or play with objects. I can guide my own thinking and actions by talking to myself as I play. I can bring my own interests and fascinations into early years settings.	I can begin to predict sequences because I know routines. I can participate in routines. I can show goal-directed behaviour. I can keep on trying when things are difficult. I can begin to correct my mistakes.	I can take part in simple pretend play. I can sort materials. I can review my progress to achieve a goal. I can solve real problems. I feel confident coming up with my own ideas. I can make more links between my ideas. I can concentrate on achieving something that is important to me. I can give my attention to tasks and ignore distractions with increasing control.
